

FOR IMMEDIATE RELEASE

PPI and Uniforce Partner to Provide Restaurant and Retail POS Sectors with Affordable, Highly Functional Integrated Credit Card Processing Solution

Partnership with Payment Processing, Inc. provides comprehensive integrated payment system

Newark, CA – April 15, 2008 -- Payment Processing, Inc. (PPI), the industry leader for integrated payment solutions, today announced it has partnered with Uniforce Technology, the leader in providing low cost, feature rich and easy to use restaurant and retail POS solutions. Under the Uniforce partnership PPI will provide the PPI PayMover payment gateway along with comprehensive services and support to Uniforce customers.

“Our decision to partner with PPI strengthens our position with customers who may not have been able to afford integrated credit card processing functionality,” said Arnold Garcia, Uniforce’s vice president of sales and marketing. “By partnering with PPI, Uniforce’s product is more appealing to a broader spectrum of customers, enabling our organization to enter new marketplaces and create new revenue streams.”

PPI’s comprehensive solutions are developed and supported completely in-house by PPI experts, resulting in a unique 360-degree view of the entire payment transaction. Each solution includes all of the critical products and services that define a successful integrated payment solution:

- No cost, feature-rich, fast and dependable PPI PayMover platform with transaction processing that is seamless, secure and reliable
- Free developer kit and integration/certification services
- Free PADSS/PCI validation services
- Dedicated account managers for developers and their resellers
- Aggressive revenue sharing program
- Marketing services to promote the integrated solution to customers
- Free, unlimited 24/7/365 technical and merchant account support from experts familiar with the specific solution

“PPI is committed to partnering with innovative companies such as Uniforce to provide business-critical, integrated credit card processing to organizations of all sizes, including those that may not have been able to afford such solutions in the past,” said Chuck Riegel, executive vice president of software products and partnerships at PPI. “Our partnership with Uniforce

strengthens PPI's position in the restaurant and retail POS markets, and demonstrates that PPI continues to meet the payment processing needs of a wide range of software developers and their customers.”

About Uniforce Technology

Uniforce POS Software delivers world-class software solutions via a fully pre-networked real-time Internet platform. Their innovative point of sale software features the data protection, storage and automatic backups, inventory controls, customer relationship management, sales person management and analytical reports. Uniforce solutions have already helped retailers manage thousands of stores, their sales data, customer records and employee profiles. Contact Uniforce Technology at www.uniforcepos.com.

About Payment Processing, Inc.

Since 1995, PPI has led the industry in providing software developers with a full range of services for developing and promoting integrated payment solutions, including PPI-developed payment gateway technology, integration support, merchant support, marketing assistance and PADSS/PCI security services. Today, PPI is the most successful company in the world focused on integrated payment solutions, supporting over 1,000 partners and more than 26,000 merchants with efficient, cost-effective payment solutions. In 2007, PPI processed in excess of \$4.1 billion in Visa® and MasterCard® payments. For more information, visit www.paypros.com.
