

FOR IMMEDIATE RELEASE

PPI and Wasp Barcode Technologies Partnership Provides Integrated Payment Processing for Small Businesses

Wasp QuickStore retail POS software now includes comprehensive integrated payment solution with PPI PayMover®

Newark, CA – June 10, 2008 – Payment Processing, Inc. (PPI), the industry leader for integrated payment solutions, today announced a partnership with Wasp Barcode Technologies, a major manufacturer of barcode software and solutions, to provide comprehensive payment processing for small businesses. Under the partnership, Wasp Barcode is integrating its QuickStore point-of-sale (POS) solution with the PPI PayMover gateway.

Wasp QuickStore POS provides fast and simple customer checkout and inventory management for small-business retailers. The integration of PPI PayMover with QuickStore offers these retailers a single source for a truly comprehensive integrated retail POS solution.

“Teaming with Wasp Barcode is a natural partnership for PPI,” said Chuck Riegel, executive vice president, software products and partnerships at PPI. “Wasp products have a strong presence and solid reputation among retailers. Now, retailers of just about any size are also able to capitalize on, and benefit from, the sophisticated payment processing technology provided with PPI PayMover.”

“As the leading provider of integrated payment processing solutions, PPI was undoubtedly our first choice as a payments partner,” said Tom O’Shea, president of Wasp Barcode. “Integrated payment processing is clearly critical to the success of our retail customers and Wasp Barcode is pleased to now provide a single source for a complete payment solution.”

PPI’s comprehensive solutions are developed and supported completely in-house by PPI experts, resulting in a unique 360-degree view of the entire payment transaction. Each solution includes all of the critical products and services that define a successful integrated payment solution:

- Free, feature-rich, fast and dependable payment technology with transaction processing that is seamless, secure and reliable
- Free developer kit and integration/certification services
- Free PADSS/PCI validation services
- Dedicated account managers for developers and their resellers
- Aggressive revenue sharing program
- Marketing services to promote the integrated solution to customers

- Free, unlimited 24/7/365 technical and merchant account support from experts familiar with the specific solution.

About Wasp Barcode Technologies
